STOCKS RISE TO YEAR'S HIGH PRICE

Market Closed Under Influence of Profit Taking and Stocks Sell Off.

Sell Off.

NEW YORK, April 25.—There were considerable additions to the week's rise in prices of stocks in to-day's market. The further advance was somewhat uneven, and the market was lacking in breadth. Dealings were largely congested in special, stocks, and these also showed the principal strength. Union Pacific was the prominent example, and fose to a higher price than has been touched since early in August of last year. Other stocks touched high prices for the present year. Some of the Southern Railway stocks were slightly affected by the reports of heavy damage by storms in the South. Further extensive covering of short contracts by the outstanding bear interests was an important factor in the market, that interest taking fright at the continued rise in prices and the failure that overcame a prominent hear house yesterday. Profit-taking was freely pursued by holders who had the benefit of the week's considerable rise in prices. The weekly reviews of the mercantile agencies recognized to the uneven and at times irregular movement of prices. The weekly reviews of the mercantile agencies recognized to the improvement in the commercial tone caused by the good crop prospects, the seasonable weather and the reflected influence of the better financial significance to the persistent advance in the price of Standard Oli in the outside market.

The market closed under the influence of profit-taking. The cash gain reported in the bank statement outran all expectations, reaching over \$10,00,000 in the averages and \$30,00,000 in the actual condition on Friday night. Bonds were firm. Total sales, par value, \$2,128,000. United States bonds were unchanged on call for the week. Total sales of stock to-day, 404,800 shares.

NEW YORK, April 25.—Mordey on call nominal. Time loans stronger; sixty days, 2@2 1-2 and ninety days, 2, six months, 3 1-2@3 3-4 per cent. Prime mercantile paper, 4 @4 1-2 per cent. Sterling exchange steady, with actual business in bankers' bills at \$4.8725@ \$4.8720 for demand, and at \$4.88725@ \$4.8720 for sixty-day bills. Commercial bills, \$4.84 1-2@\$4.84 3-4. Bar silver, 53 1-2. Mexican dollars, 47.

215 Mutual Building,

Here is the market where Standard Oil, Adams Express, Otis Ele-

Here is the market where Standard Oil, Adams Express, Oils Elevator, Royal Baking Powder, Chicago Subway, American Light and Traction, and many other well-known stocks are constantly traded in. But only the established, seasoned and meritorious stocks can stand the bright light of inquiry that is always turned full upon this market. Here the brokers and traders of the financial capital of the country at once pick out the weak stock and discard it. These men are educated and trained by experience. Here the proposition with merit survives; the one without merit in a few days withers, dies and is forgotten.

Penn-Wyoming Copper

This stock has been firmly established on the New York Curb for about six months. It has stood the test and is recognized to be one of the leading securities in this market. Those who first asked: "What is it?" soon gave orders to buy and then duplicated their orders to buy and have gone on buying, and thousands of shares of this stock have drifted into the hands of large Eastern holders.

You do not need to trade in doubtful stocks. There are plenty of good ones to put your money into.

Some of the shrewdest and most careful investors that we know are predicting for Penn-Wyoming 100 per cent. advance within one hundred days.

hundred days.
We are advised that the Penn-Wyoming Company has materially We are advised that the Penn-Wyoming Company has materially increased its output of copper recently, and is very likely to tura out over a million pounds of copper within the next four weeks. We are informed that the Company's production will exceed 1,500,000 pounds of copper monthly within ninety days. This is at the rate of eighteen million pounds annually. With that production realized the stock is worth \$2.00 per share.

This stock appears to us to be a very attractive purchase at the present price, about 35-37.

We Will Buy 150,000 Shares
